

Use Express Exit at McCarran International Airport for fast and convenient parking.

The process is simple. Just follow these easy steps:

Take an Express Exit ticket when you enter the parking facility and be sure to take it with you.

Don't leave your Express Exit ticket in your car because that's your "ticket" to getting out of the parking lot quickly when you return.

Choose your parking spot and enjoy your trip.

When you return, look for a bright yellow Pay Station, conveniently located at all airport parking areas.

Walk up to a pay station, insert your Express Exit ticket, follow the steps and pay with cash or credit card.

And if you pay with cash, don't worry about having the exact amount. Remember to grab your Express Exit ticket when you complete your transaction. You'll need it when you exit the parking lot.

Once you get in your car proceed to an Express Exit lane, insert your ticket, take your receipt and you're on your way... vroom, vroom!

If you forget to use an Express Exit Pay Station, you can still pay at the parking lot exit - it's just not as quick! You can still use the Express Exit Lanes though; all you'll need is a credit card and your Express Exit ticket. If you're paying with cash, you'll need to see a parking booth attendant.
