Welcome to McCarran's fast, easy and free Wi-Fi service.

Getting Connected

If your laptop computer or personal digital assistant (PDA) is already Wi-Fi enabled, simply open your browser to automatically detect the wireless network.

Read the terms and conditions on the McCarran Wi-Fi "splash screen" and press the "accept" tab. Enter your e-mail address and begin surfing the web.

Note: Your e-mail address will not be shared with other entities.

Need Help?

If you are not automatically connected to McCarran Wi-Fi, follow these steps.

- ◆ Set the network name (or SSID) to McCarran Wi-Fi or select it from the list of available wireless networks.
- ◆ Next, verify that your laptop is configured to automatically obtain an IP address and DNS.
- ◆ Turn off encryption and do not use the WEP key.

Need More Help?

If you need assistance configuring your system to the McCarran Wi-Fi network, please call during normal business hours, Mon.-Fri., 261-HELP (4357) or 261-4144 after 5 p.m. and on weekends.

Note: It is not our intention to create a secure environment suitable for the exchange of sensitive information. This is an open network and McCarran strongly encourages customers to use Virtual Private Network (VPN) when security is of concern.
